## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or  
(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

2. Claims 1 and 15-18 are rejected under 35 U.S.C. 102(e) as being anticipated by Hailey (US 2003/0000700 A1).

The gravel packing apparatus of Hailey includes all the limitations of claims 1 and 16 including: a base pipe with apertures (62), a screen (84), a channel (see figures 3-5; channel formed between ribs 70), a port (144), and the method of claim 16 (claim 27). With respect to the dependant claims Hailey also teaches: multiple screens (figure 1)-claim 15; cement casing (34; paragraph 27)-claims 17 and 18.

### ***Allowable Subject Matter***

3. Claims 2-14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

4. Applicant's arguments with respect to claims 1 and 15-18 have been considered but are moot in view of the new ground(s) of rejection.
